COMPANY OVERVIEW

Stepup Networks LLC accelerates digital transformation by combining Low-Code development with Generative AI. We help organizations:

❖ Build smarter apps in days, not months
❖ Turn data into intelligence with Custom RAG "knowledge factories."
❖ Streamline operations with AI & automation.

Our mission: make AI practical, secure, and transformative for every enterprise.

AI-DRIVEN WORKFLOWS & APPS

Why spend months coding when you can create apps instantly by describing your needs in natural language? With our AI App Generator:

❖ Build apps instantly with Low-Code & Gen AI.
❖ Unlock AI with guardgrails secure, enterprise-ready workflows.
❖ Streamline operations with automation & reporting.
❖ Experience Generative AI and No-Code – a match made in heaven.

We help turn workflow bottlenecks into intelligent, self-adapting systems.

CUSTOM RAG SOLUTIONS

With Custom Retrieval-Augmented Generation (RAG), Stepup Networks LLC transforms scattered information into a living knowledge factory:

❖ **Instant Answers –** Ask questions in plain language, get precise answers from your data.
❖ **Knowledge At Your Fingertips –** Centralized and contextualized enterprise knowledge.
❖ **Smarter Decisions –** Real-time intelligence for faster, more confident choices.
❖ **Secure By Design –** Guardrails to protect sensitive data.

Spend less time searching, more time on insights.

CORE COMPETENCIES

✅ AI-Powered App Development (Low-Code & AI)
✅ Custom RAG "Knowledge Factories"
✅ Conversational AI & Workflow Automation
✅ Test Automation (Selenium, Performance Testing)
✅ AI Advisory & Strategy
✅ Staff Augmentation / Contingent Workforce

PROJECTS

✅ Custom RAG & AI Workflow Solutions
✅ E-Absentee Portal for Virginia
✅ Intelligent Risk Management Portal
✅ Business Process Integration
✅ QA Automation & Performance Testing

DIFFERENTIATORS

✅ **AI-First Approach** – AI at the core of every solution.
✅ **Knowledge Factories with RAG –** Turning data into living intelligence.
✅ **Low-Code & AI Synergy –** Faster, safer, lower-cost delivery.
✅ **Proven AI & Automation Expertise –** 20+ years in enterprise automation.
✅ **Open Source AI Innovation –** Flexible and scalable frameworks.

ENHANCEMENT LAYERS
Efficiency, Scalability, Usability
